

Polyoil 1200SB

New innovative eco-friendly design

The most practical and effective oil storage tank on the market - and the most aesthetically pleasing!

The new top and bottom outlet
Polyoil is the only complete
packaged oil tank on the market

This innovative product is supplied complete and fully preassembled - no extras required! Rotationally moulded from UV-stabilised medium density polyethylene, Polyoil measures just 1700mm x 850mm x 1620mm and is around 40kg lighter than similar products, making it easier to install.

Polyoil 1200SB has been tested and approved to OFTEC OFST100 (Ofcert licence no.0674110802) in accordance with CEN/TC266 prEN13341:2008 and prEN15724:2008 standards.

A Comprehensive and Ecologically Sound Guarantee

Like all Polyoil products, the 1200SB comes with a five year manufacturer's guarantee. Fittings are guaranteed for 12 months. It is recommended that the tank is replaced after 10 years and should not be used at all after 15 years of service. Oil will eventually leech through any plastic and this is reflected in the guarantee and Polygroup's commitment to ecological responsibilities.

Bunded for extra protection

Tying in neatly with Polygroup's commitment to the environment and our five year guarantee on the Polyoil 1200SB, this product is bunded to ensure that the risk of oil loss is eliminated. It's not just good for the planet, it's good for your pocket.

Clean design fits in anywhere

All these great product features make the Polyoil 1200SB a highly practical solution to oil storage - but it is also an elegant one. Available in two subtle colours, the Polyoil 1200SB can blend harmoniously with any garden or setting - doing its job while being unobtrusive.
